Notice of Privacy

THIS NOTICE DESCRIBES INFORMATION ABOUT YOU AND HOW IT MAY BE USED, AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

Introduction

We are committed to treating and using protected health information (PHI) about you responsibly. This Notice of Health Information Practices describes the personal information we collect, and how and when we use or disclose that information. It also describes your rights as they relate to your PHI. This Notice is effective April 14, 2003 and applies to all PHI as defined by federal regulations.

Understanding Your Health Record/Information

Each time you visit TCFM, a record of your visit is made. Typically, this record contains your symptoms, examination and test results, diagnoses, treatment, and a plan for future care or treatment. This information, often referred to as your health or medical record, serves as a:

- Basis for planning your care and treatment,
- Means of communication amongst the many health professionals who contribute to your care,
- Legal document describing the care you received,
- Means by which you or a third-party payer can verify that services billed were actually provided,
- A tool in educating heath professionals,
- A source of information for public health officials charged with improving the health of this state and the nation,
- A tool with which we can assess and continually work to improve the care we render and the outcomes we achieve.

Understanding your record and how your health information is used helps you to: ensure its accuracy, better understand your health record and who, what, when, where, and why others may access your health information, and make more informed decisions when authorizing disclosure to others.

Your Health Information Rights

Although your health record is the physical property of TCFM, the information belongs to you. You have the right to:

- Obtain a paper copy of this notice
- Inspect and copy your health record as provided for in 45 CFR 164.524,

- Request communications of your health information by alternative means or at alternative locations,
- Request a restriction on certain uses and disclosures of your information as provided by 45 CFR 164.522, and

Examples of Disclosures for Treatment, Payment and Health Operations

We will use your health information for treatment.

For example: Any information obtained by TCFM employees will be recorded and used to determine the course of treatment of your care. Your provider will document in your record his or her plan of treatment and how it will be carried out by TCFM employees. TCFM will then record the actions they took and their observations. In that way, the provider will know how you are responding to treatment.

We will also provide your subsequent health care provider with copies of various reports that should assist him or her in treating you.

We will use your health information for payment. For example: A bill may be sent to you or a third-party payer. The information on or accompanying the bill may include information that identifies you, as well as your diagnosis, procedures, and supplies used.

We will use your health information for regular health operations. For example: TCFM employees will use information in your health record to assess the care and outcomes in your case. This information will then be used in an effort to improve the quality and effectiveness of the healthcare we provide.

Communication with your designated representative: TCFM using their best judgment, may disclose to your designee, health information relevant to your care or payment related to your care. Food and Drug Administration (FDA): We may disclose to the FDA health information relative to adverse events with respect to food, supplements, product and product defects, or post marketing surveillance information to enable product recalls, repairs, or replacement.

Workers compensation: We may disclose health information to the extent authorized by and to the extent necessary to comply with laws relating to workers compensation or other similar programs established by law.

Public health: As required by law, we may disclose your health information to public health or legal authorities charged with preventing or controlling disease, injury, or disability.

Law enforcement: We may disclose health information for law enforcement purposes as required by law or in response to a valid subpoena.

Federal law makes provision for your health information to be released to an appropriate health oversight agency, public health authority or attorney, provided that a work force member or business associate believes in good faith that we have engaged in unlawful conduct or have otherwise violated professional or clinical standards and are potentially endangering one or more patients, workers or the public.
